ASHEN KAVINDU(FULL-STACK DEVELOPER)

Galle, Sri Lanka | (+94) 719047694 | akavindu288@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

I am a BICT undergraduate with skills in software and web development. Passionate about creating innovative solutions, I have experience with modern technologies and frameworks. I'm eager to contribute to the tech industry while continually learning and improving.

EDUCATION

- Bachelor of Information & Communication Technology (Honors | UG)
  2022 - Present Faculty of Technology, University of Ruhuna.
  Major: Software Engineering | Major: Web Development

PROJECTS

Kingsman Cafe and Event Management System (2024)
Technologies: React.js, Spring Boot, MySQL
- Implemented a full-featured system for cafe operations, including payroll management, salary management and event scheduling—enhancing organizational efficiency and scalability.

Sun-Fly Room Management System (2024)
Technologies: React.js, Spring Boot, MySQL
- Developed a secure and user-friendly room booking system for managing villa reservations, customer data, and property oversight — tailored for receptionists, managers, and property owners.

Bid-Zone Auction Platform Web Application (2024)
Technologies: Advanced Java, MySQL, HTML, CSS
- Developed an auction platform as a university project using Java, HTML, and CSS, offering secure bidding and efficient auction management..

Shopping Site Web Application (2023)
Technologies: Laravel, Tailwind CSS, Bootstrap, JavaScript, MySQL
- Developed a full-featured web application for managing an online clothing store, including product listings, inventory control, and UI customization. Configured user-friendly interfaces and implemented a scalable backend structure.

TECMIS Desktop Application (2023)
Technologies: JavaFX, MySQL
- Contributed to the development of a desktop application for educational data management, focusing on object-oriented programming concepts. Project completed collaboratively between October and December 2023 as part of an academic module.

LNPR Cinema Ticket Booking System (2022)
Technologies: PHP, HTML, JavaScript, CSS
- Implemented cinema ticket booking functionality with seat availability management and user reservation workflows in a dynamic web-based ticketing system.

CERTIFICATES

- Postman Student Expert
- GitHub Foundations

TECHNICAL SKILLS

- **Programming Languages:**
  Java, JavaScript, SQL, C

- **Web Development:**
  HTML, CSS, React.js, Laravel, WordPress

- **Tools & Platforms:**
  Git, Visual Studio Code, IntelliJ IDEA, NetBeans, Postman, Jira, Azure

- **Frameworks & Libraries:**
  Spring Boot, Bootstrap, Tailwind CSS

- **Databases:**
  MySQL, MS SQL
